

IRTE in Iran

Selected experts from the International Road Federation (IRF) membership were invited to Tehran to deliver a three day seminar from 26 to 28 June 2005, for the Ministry of Road & Transportation of Iran. The seminar was tailored to the needs of the Iran Ministry and focused on the following three key themes: road safety, road maintenance and road finance. The seminar was attended by 50 delegates from the ministry of Tehran as well as from the traffic police. IRF was represented by its Director General, Mr. Anthony Pearce, Mr. Harry T. Evdorides, Faculty, School of Engineering, the University of Birmingham, UK, M/S EGIS France, M/s MENA Jordan, M/s Scott Wilson, UK. The Workshop was inaugurated by Mr Khansar Deputy Minister, Govt of Iran, and President, RMTO Mr. Rohit Baluja, President IRTE made a compelling presentation on the theme of road safety management which included the subjects of traffic engineering accident investigation and analysis, understanding of traffic laws, as well as traffic police.
