

B.Sc.- M.Sc. Forensic Science (Five Year Integrated) & **M.Sc Forensic Science**

Affiliated to National Forensic Sciences University (NFSU)

Prospectus

**COLLEGE OF TRAFFIC MANAGEMENT
& FORENSIC SCIENCE**

CENTER OF EXCELLENCE IN ROAD SAFETY FOR SOUTH-EAST ASIA

www.irte.com

VISION

The College of Traffic Management & Forensic Science has been established to take forward IRTE's vision of creating an umbrella facility for research based training for capacity building in Road Safety Management and Forensic Science for India and other developing countries.

BASIC PHILOSOPHY

The basic Philosophy of IRTE-CTM is to inculcate social responsibility among all its stakeholders by providing a platform for academic freedom to acquire knowledge, to participate and make a difference in the society by way of research and creativity in the areas of Traffic Management and Forensic Science

ACADEMIC VALUES

The core academic value of IRTE-CTM is to nurture learning. The College promotes the pursuit of theoretical and practical knowledge while encouraging not only for achieving academic excellence but also for critical thinking to meet evolving challenges and opportunities. The values are focused mainly on community contribution, learning, integrity, and excellence

TOTAL QUALITY MANAGEMENT

An Internal Quality cell has been created to keep a check on the functioning of the programs. The labs are maintained as per NABL standards.

About CTM

The College of Traffic Management (CTM) & Forensic Science under the aegis of Institute of Road Traffic Education (IRTE) was established in 2010. CTM is a research based institution located on the Surajkund Badhkal Road, adjacent to the Manav Rachna University in Faridabad, NCR Delhi.

CTM offers a variety of short term certificate courses in traffic management and forensic science that include the subjects of : traffic engineering, road safety audit, traffic enforcement, accident investigation, highway asset management, fleet management, driver training, scene of crime investigation, fingerprint examination, forensic toxicology, Forensic analysis of Impression evidences and question document examination.

CTM has six departments within its campus, namely: Department of Traffic Engineering, Department of Law, Department of Traffic Enforcement, Department of Forensic Science, Department of Public Health for Road Safety, and the Department of Driver Training & Road Safety Education. The departments collectively and individually conduct the courses and are supported with the best laboratories. CTM also boasts of having the Road Safety Hall of Nations (where the United Nations held the first Session of the Global Forum for Road Traffic Safety, out of the Palais of Geneva in 2013) and the Road Safety Court of Justice (created for the training of Prosecutors and Judicial Officers).

CTM-IRTE has entered in to MoUs with Graz University of Technology, Austria, University of Birmingham, UK, The National Highway Traffic Safety Administration (NHTSA) of the Dept. of Transportation of USA the Academic College of Emergency Experts in India (An Indo-US Emergency Collaborative Undertaking) the School of Planning and Architecture (SPA), New Delhi, National Forensic Sciences University (NFSU), National Highways Authority of India(NHAI), Malaysian Institute of Road safety (MIROS), Punjab and Haryana Police amongst others.

CTM is one of the premiere institutes, dedicated to provide outstanding quality education with innovation and is vigorously promoting inter-disciplinary research through its core disciplines.

About IRTE

The Institute of Road Traffic Education (IRTE), established 33 years ago as a not for profit research organisation, is the country's premier resource towards capacity building in all domains of traffic management, forensic science and road safety.

IRTE has been training police officers (both for Indian Police Services & State Police Service) personnel of the Indian Army, Navy and Airforce, Para Military forces, highway & PWD engineers, drivers and driver trainers, transport officers, motor licensing officers, amongst other stakeholders, across India.

Since its inception, IRTE has delivered several important initiatives which have received national and international recognition. These research based initiatives include the mobile traffic enforcement vehicles – Interceptor, Mobile Crash Investigation & Research Laboratory – CrashLab, the School Conclave programme for imparting road safety education in schools, the National Highway Road Safety Literacy Programme, Journey Risk Management JRM, Student Traffic Volunteers Scholarship Scheme STVS, the bottom-up approach in interactive driver training systems, Forensic Road safety Audit FRSA, amongst many others.

IRTE has been conferred with many national and international awards, including the first National Road Safety Award in 2000, by the Government of India and The Prince Michael International Road Safety Award (2001) Premier Prince Michael International Award 2018, presented to IRTE, the first time outside of the United Kingdom.

IRTE is a member of the United Nations Road Safety Collaboration and Towards Zero Foundation. IRTE has earned a Roster Consultative Status from the United Nations Economic and Social Council since 2010. IRTE has also been participating at the Global Forum for Road Traffic Safety (WP1) of the United Nations Economic Commission for Europe (UNECE) as an Observer. The IRTE and UNECE have signed a Memorandum of Understanding in Geneva on the occasion of the 76th session of the Global Forum for Road Traffic Safety to promote road safety in India and South East Asia.

In 2010 IRTE established the COLLEGE OF TRAFFIC MANAGEMENT (CTM) & Forensic Science which is recognized as Centre of Excellence in Road Safety by the UNECE.

Message From The Director CTM-IRTE

When we think of the application of forensic science, we believe that this discipline relates to resolving civil disputes, to enforcing criminal laws and government regulations justly and to protecting public health. Similarly, when we consider forensics as a profession, contrary to what is generally perceived merely as the science of detection of crime and laboratory application, we need to enlarge our scope of thinking to that of prevention. Students should get opportunities in every domain including audit, process validation, plugging loopholes, judiciary, insurance, legal consultancies and security agencies. Prevention of crime should be where professional opportunities exist.

We, at IRTE's College of Traffic Management & Forensic Science are committed to the advancement of excellence so that together we can make our countries self-sustaining in the domains of forensic sciences and traffic management. We endeavour to provide such need-based and research-based education and our contribution lays emphasis on indigenous issues adapted to the time.

Our aim is not just to provide degrees to our students, rather, we strive to instil in them confidence and self-empowerment, so that they are successful leaders of tomorrow. Keeping in mind that our goal is not just certification, we prepare the young minds with such practical and realistic knowledge that they can function independently, creatively and effectively in their post-graduation lifetime.

*Dr. Rohit Baluja, P.hD
President - IRTE &
Director - CTM*

About NFSU

National Forensic Sciences University, the erstwhile Gujarat Forensic Sciences University is the brain child of Govt of Gujarat. It was established by the Hon'ble Prime Minister of India Shri. Narendra Modiji, then Chief Minister of Gujarat in 2009 with a sole objective of creating professional experts in the field of Forensic sciences. At a

juncture of spiking number of crimes involving sophisticated technologies and much evolved modus operandi, there was a need for scientists and technocrats. Thereby the resolution of such heinous crimes were more diligently possible. This has been prudently considered by the Govt of Gujarat and the university came into existence as a unique and first of its kind academic institution dedicated to Forensic Sciences across the globe.

The National Forensic Sciences University with the status of an Institution of National Importance is the world's first and only University dedicated to Forensic, behavioral, cybersecurity, digital forensics, and allied Sciences. It was established by the Government of India through Act, 2020 (32 of 2020) with the objective of fulfilling the acute shortage against the increasing demand for forensic experts in the country and around the world.

Since its inception, the university has been scaling new heights with its extraordinary and exemplary performances in the field of academic forensics sciences. Though the university started with conventional courses related to forensic sciences has been able to introduce novel courses those are based on the requirement of the country to solve the issues related to the society. Starting with four courses in three institutes, the university shrugged off the inception stages very early with pioneering efforts of introducing distinctive courses those were unique such as forensic nursing, forensic odontology, forensic nursing, homeland security and anti-terrorism, digital forensics to mention a few. This has reached a magical figure of forty currently. All these courses have been very much sought after by prospective and aspiring experts as they are the need of the hour. Based on its impressive successes achieved by this university within a short span of eleven years, the Government of India has recognized its services to the student communities and the professionals of the national and international origin, and has accorded the status of Institution of National Importance and the also as a central university in October 2020.

The university has been reaching numerous mile stones every year with the stellar academic and other related activities. The university has been making stringent efforts in the cutting edge research and the same is reflected in the publication of such innovative outcomes in the journals of international repute. The university has developed another institution exclusively for training of such professionals. It has also integrated the management studies in its ambit. Large number of officers belonging to various countries of African continent, south East Asia, Middle East nations, west Asia to mention a few.. The university has also established various centres of excellence in its campus such Ballistics Research Centre and Testing Range, Cyber Defence Centre, International Centre for Forensic Narcotics, International Centre for Humanitarian Forensics.

Ministry of Home Affairs, Government of India has already annexed the Delhi Centre, the erstwhile National Institute of Criminology and Forensic Sciences with this university. There is a scope of integration of many centres across the country and globe with this university for the benefit of the scientific investigative experts of the country. There are lots of prospects of establishing a number of academic centres across the globe by this university in the near future. This would definitely lead to the globalization of forensic sciences academia in true sense by this service-oriented institution. This proves the contemplation of the global village of forensic sciences under one roof of NFSU.

B.Sc - M.Sc. Forensic Science (Five Year Integrated) & M.Sc Forensic Science Programme

Inception of the Programme

Having contributed to nation building in the last 33 years by way of training police officials and engineers along with research, our transition to the next level for creating qualified personnel in scene of occurrence examination, scientific analysis of evidence, and thorough, reliable investigations, and helping the nation in capacity building, was a natural step ahead.

Considering the need for qualified personnel to handle the alarming scenario of crimes in the country and to create a scientific temperament, CTM is offering a B.Sc.- M.Sc. Forensic Science (Five Year Integrated) and M.Sc. Forensic Science Courses through its Department of Forensic Science with the approval of the National Forensic Science University, Gandhinagar. The Department provides a program to produce qualified professionals eager to advance in the diverse fields of forensic science and its associated realms, with the goal of ensuring justice in court.

B.Sc / M.Sc. Forensic Science (Five Year Integrated) & M.Sc Forensic Science Programme

About the Programme

ABOUT THE PROGRAM

Both the Courses uniquely integrates a multitude of forensic scientific aspects, enabling students to become valuable assets to various stakeholders.

We offer a comprehensive and engaging classroom learning program that provides students with a solid foundation in the principles, techniques, and applications of forensic science. We strive to create an immersive and dynamic learning environment.

Hands-on training is an integral part of our curriculum. We believe that actively engaging in laboratory experiments and simulations, allows students to enhance their technical expertise and analytical abilities. And through our fieldwork component, students have the chance to apply their theoretical knowledge in practical scenarios. They work alongside professionals in the field, gaining valuable insights into various domains of forensic science. This exposure helps them develop critical thinking skills and a deep understanding of the challenges faced in forensic investigations.

Furthermore, we foster partnerships with law enforcement agencies, forensic laboratories, and other relevant organizations to offer internships and collaborative project work to our students. These opportunities further enhance their practical exposure and provide valuable networking connections that can open doors to future employment.

OBJECTIVE OF THE PROGRAMS

The objective of the program is to provide in-depth knowledge and encourage the holistic development of students in the field of forensic science by creating a research environment and offering hands-on experience in the various domains of analytical sciences through the M.Sc. program

Education

- To bridge the gap between companies and educational institutions by providing world-class education, thereby, creating competent candidates in the contemporary workspace.
- To incorporate recent innovations and deduce the overall trends in the criminal justice system through global and national collaboration.

Innovation

- To contribute to the advancement of forensic science, specifically by encouraging scientifically acclaimed practices in casework through meticulously crafted workshops and training
- To encourage ethical research work that contributes to the field of science as a whole, including the publication of research articles to help validate methodologies and approaches.

Development

- To facilitate industrial visits, guest lectures, workshops, research seminars, and conferences by building a strong academic-industry partnership and ensuring 100% placement support for students.
- To advise and guide students on careers and professional development within and beyond the field, whether through public or private sector opportunities or as successful up-and-coming entrepreneurs

Course Structure

FIELD WORK

CTM is the only Institution in Delhi NCR that offers fieldwork opportunities to students as an integral part of their curriculum. This unique feature allows students to actively engage in real-time cases collaborating with Police officials, mobile forensic units & investigators. This helps the students to visualize and learn strategies employed in court proceedings to present themselves as competent forensic experts when providing testimony. Additionally, students gain a comprehensive understanding of victimology, criminology, and the challenges associated with these fields. They also acquire knowledge of the procedural aspects involved in conducting post-mortems.

This is further described below:-

1. Police Departments – Students have the privilege of working with police departments and participating in the investigation of real-time cases at crime scenes, working alongside skilled investigating officers.

2. Law Firms - They acquire insightful and practical knowledge of court proceedings and develop the necessary skills to serve as expert witnesses in the court of law.

3. NGOs- We collaborate with NGOs working on various crime-related issues, such as crimes against women, crimes against children, and child labour, providing students with the chance to explore the physical and psychological challenges faced by victims and learn about proactive forensic strategies. psychological challenges faced by these victims and how they are dealing to overcome them. Providing them information and guidance regarding Pro-active Forensics.

4. Hospitals - Visit for learning procedural details of Post-Mortem conduction for collection & preservation of sample evidences as per requirement of the Case.

Why Study with us

Placement

At CTM, we strive to provide our students with a wide range of placement opportunities that align with their career aspirations. Our strong industry connections, combined with our comprehensive curriculum, ensure that graduates are well-prepared for future job prospects.

Throughout their placements, students receive mentorship and guidance from experienced professionals in the field. These opportunities not only enhance their technical skills but also foster the development of critical thinking, teamwork, and communication skills that are vital for a successful career in forensic science.

Career Outcomes

- As Forensic Scientists/ Senior Scientific Officer/ Scientific Officer/ Senior Scientific Assistant/ Scientific Assistant/ Laboratory technicians in various Forensic Science Laboratories (Government & Private Forensic Science Labs) across India.
- Freelance experts in the area of Questioned Documents & Finger Prints
- In material testing laboratories – The quality check division
- Both Government & Private Banks
- Insurance agencies
- Pharma Companies
- Detective Agencies
- Security Agencies/departments
- Research Organizations
- Academics-Colleges/Universities
- Legal/Consulting Firms
- Multi-National Companies
- Corporate Firms
- Quality Audit Organisations
- Digital, Cyber forensic & mobile forensic Labs & firms

Cells, Committee And Processes

Grievance Redressal Cell – Composition

The College has a Grievance Redressal Cell looking into varied student complaints regarding examinations, fees, and other related issues. The grievance cell will undertake each complaint or grievance of the student shall be entered as per the Performa attached and will be allotted a serial number. Every effort shall be made to resolve the grievance within three working days but maximum seven days and a report thereof shall be sent to the Director of the College. Whenever the email address is given in the complaint by the complainant, the reply shall be sent through email.

Committee on Sexual harassment - Composition

Committee to check menace of sexual harassment and violence against Women as -To ensure provision of a work and educational environment that is free from sexual harassment. To take all reasonable steps (active and preventive in nature) to prevent the harassment occurring; To address any oral/written complaint about: unwelcome sexual advances, unsolicited acts of physical intimacy, unwelcome requests for sexual favors or other unwelcome conduct of asexual nature. Unwelcome conduct of a sexual nature includes oral or written statements of a sexual nature to a person, or in a person's presence, Humiliating, Intimidating, Demeaning and/or Persistent criticism, Open hostility, Suggestive comments or Body language, Publishing, Circulating or Displaying pornographic, Racist, Sexually suggestive or Otherwise offensive pictures or Other materials, Unwanted physical contact, Ranging from an invasion of space to a serious assault.

Proctorial and Disciplinary Committee

The Proctorial and Disciplinary Committee ensures discipline, dignity, decorum, and a positive atmosphere within the institute. It enforces rules and regulations to guide students toward constructive development while promoting values such as respect, character building, and social responsibility. The committee oversees disciplinary actions related to attendance, punctuality, student behavior, and property maintenance. It also aims to prevent any misconduct, including misbehavior with staff or peers, damage to institutional property, or any unruly activities, ensuring a peaceful and safe learning environment.

Internal Quality Assurance Cell (IQAC)

The primary aim of IQAC is to develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of the institution. It also promotes the measures for institutional functioning towards quality enhancement through internalization of quality culture and institutionalization of best practices

Anti-Ragging Cell – Composition

The College of Traffic Management & Forensic Science has an anti-ragging committee established to prevent ragging on the campus as Zero-Ragging Zone for both the departments. It is composed of the Director, Heads of Department, and faculty members. The committee works to give students ragging free campus through zero tolerance approach to it. A mandatory undertaking from all students as well as from their parents/guardians is obtained at the time of their admission to the college. An anti-ragging guidelines and regulations are displayed at various areas of the college in every floor.

Women Cell

The College has established a Women Cell in the college campus for the women faculty, staff and girl students, to enhance understanding of issues related to women and to make the college campus a safe and comfortable place for them. With an aim of creating awareness of their rights and duties the cell talks and also takes up women's issues and problems. It also provides a platform for women to share their experiences and views regarding their status in the society and to suggest ways to improve and empower themselves.

Career Counselling, Placement and Personality Development Cell - Composition

This cell was created with an objective to address the issues such as -To equip students with skills beyond the text books that will help them deal with difficult challenges in the growing world. Provide Career counselling with well-established entrepreneurs/ Organizations/ Industry persons. To focus on overall personality development. To groom students ready fit for the Placement agencies/ Police Departments/ MNCs/ Labs/ Banks/ Legal firms and so on

Note: the Candidates are required to submit affidavit against ragging at the time of admission.

An Enabling Environment

College of Traffic Management & Forensic Science incorporates a special advantage, being located in Aravalli Hills, Faridabad, within the National Capital Region of Delhi. The College has been strategically built in the calm environment of the Aravalli's on a 1.75 Acres of land with a built-up area of over 29,000 sq. ft. The College is well connected with domestic and international airport, railways stations and the Inter-State bus terminals. Hospitals, shopping centres, and recreational facilities are available at a convenient distance. The College ground with manicured lawns, trees, and flowers, makes a healthy and pleasant environment for peaceful learning and sharing.

College of Traffic Management & Forensic Science provides the quality infrastructure to fulfil the overall educational needs of the students. The College has fully AC classrooms equipped with advanced multimedia projectors and LED displays. The College has advanced Lab facilities for the students to perform their practical and research work

Road Safety Court of Justice

Road Safety Court of Justice has been established under the aegis of the Department of Law at the College of Traffic Management & Forensic Science. It is one of the most prominent departments of IRTE which works jointly with the rest of the departments.

This is a Moot court room, where judicial officers and prosecutors are trained, particularly in the area of crime and accident

RESOURCES /CAMPUS FACILITIES

Our facilities are nothing short of world class. The College provides real-life, standard working environments, giving you a significant advantage for when you finish your studies.

AUDITORIUMS

The College has two air-conditioned auditoriums with a seating capacity of 75 & 120 respectively. Auditoriums & Seminar Halls are equipped with the latest audio visual facilities. These facilities provide an ideal venue for seminars, guest lectures, conferences, workshops, panel discussions talk shows, and cultural activities.

Guidelines for Admission

Eligibility For B.Sc.-M.Sc. Forensic Science

(Five Year Integrated)

Passed or appeared in 10+2 (or its equivalent) in Science, Physics/Chemistry/Biology/Mathematics with at least 60% for General/OBC/EWS category candidates and 55% or equivalent for SC/ST and PwD category candidates

Seat Intake

Limited number of seats.

Eligibility For M.Sc. Forensic Science

Bachelor's degree in Science / Forensic Science/ Medicine / Engineering / Pharmacy/Dentistry/AYUSH with at least 55% for General/OBC (NCL)/EWS category candidates, and 50% or equivalent for SC/ST and PwD category candidates.

Seat Intake

Limited number of seats.

BANK DETAILS & QR CODE (for UPI Payment)

COLLEGE OF TRAFFIC MANAGEMENT & FORENSIC SCIENCE
The details of account is given below

Account Name	
Bank Name :	AXIS BANK LTD. GREENFIELD COLONY, FARIDABAD, HARYANA
Account Number:	922010045530757
IFSC Code :	UTIB0002693

MODE OF ADMISSION

For admission in the above said programs, candidates need to appear for the National Forensic Sciences University (NFSU) entrance examination. Candidates are required to appear for the exam, and upon qualifying (Both merit list candidates as well as waiting list candidates), you can select College of Traffic Management (CTM) & Forensic Science - IRTE during the counseling process. For detailed information on the admission process, eligibility criteria, and important dates, please visit the official NFSU admission portal: Admissions - National Forensic Sciences University
